

InSite™ – Bringing your applications into view so you can focus on your customer

POWERED BY
WebSphere. software

Your corporate portal is a tremendous asset. It brings together in one place, in real-time, partner, clients and more importantly, your customers.

One of your greatest challenges is to build, manage, and deploy your content and applications, quickly and accurately, without taxing your organization's resources.

InSite™, elluminis' customized portal solution makes running even the most complex organizations efficient and simple.

InSite™ increases productivity and knowledge management capabilities. Furthermore, your employees receive personalized access to all of your applications and data. We do all this while integrating with your back-office ensuring maximum ROI on your existing systems.

InSite™ combines the best tools from IBM and other world-class providers, to help organizations achieve their strategic goals.
